

Natural Red, more Vivid Red

150W
Clear

70W
Clear

- Enhances fresh appearance of all naturally red foods e.g. bread, meats, tomatoes, red fish
- EYE CERA ARC Natural Red maximizes the beauty and depth of red colors
- Faithfully reproduces all other colors
- White fish looks fresher, green leaves look greener

Features

Excellent
Red
Over R9: **90**
(150W)

High CRI
Ra **92**

UV
Cut

- Excellent rendition & resolution of red colors
(R9 : Red) = + 90 (150W) (+ 70 for 70W)
- Overall Ra of 92 gives excellent and true rendition across all colors
- A deep natural red, superior to effects created even by neodymium & white sodium lamps or filters
- Excellent & natural reproduction of colors, unachievable with other light sources, to create the best possible food and shop lighting
